Suits multiple sizes of extinguisher.

Product Code:
FEVMRED

Fire Extinguisher Bracket

High-Quality Weather-Resistant Fire Extinguisher Bracket

Keeping a fire extinguisher on a vehicle is essential for handling emergency situations more effectively. However, such situations are not frequent, and often the condition of the fire extinguisher deteriorates when it remains dormant for a long time. To maintain the safety and functionality of the fire extinguisher, **FSP Oz Products** offers high-quality fire extinguisher brackets.

Invest In A Sturdy And Long-Lasting Fire Extinguisher Bracket For Safety:

Our fire extinguisher bracket is engineered using high-density polyethylene. It is UV stabilised and won't rust in harsh Australian weather conditions, keeping the fire extinguisher safe for years to come.
