Work Platform

- Sturdy
- Light Weight
- UV Stabilised
- Corrosive Resistant
- Moulded Non Slip Tread
- Handles For Easy Mobility
- One Piece Rotationally

Moulded For Superior Strength

Size:
Width: 530mm
Depth: 780mm
Height: 480mm

Product Code:
WP500

Work Platform

Secure and flexible work platforms in Australia.

Work-related injuries, falls and casualties are more likely when suitable safety measures are not taken. Whether you're working on a large-scale construction or mining project or simply washing windows, unloading luggage or equipment for a marine project, safety work platforms play a crucial role. They can help you access those tough-to-reach areas or quickly lift materials at work, keeping you safe when working above the ground.

Designed to last for years, this handy safety step is secure and lightweight.
